Emanuela Patti Royal Holloway, University of London, UK Beyond computer screens: projecting digital moving images in public spaces In this paper, I will explore creative practices which experimented with the projection of computer-generated images beyond their original setting, namely the computer monitor. Since he was convinced that not only a single experimental approach could solve a problem as complex as the development of the nervous system, he also included the molecular biological approach when he moved to Cologne, while maintaining a strong focus on anatomy, embryology and genetics.
